Professional Summary

Dynamic **Full-Stack Developer** proficient in **Java, Laravel, and React**. Proven track record of building scalable web applications and delivering impactful technology solutions through effective collaboration and project ownership.

Technical Skills

Languages: Java, Python, PHP, JavaScript, SQL

Frameworks & Tools: Laravel, Spring Boot, React, Hibernate, JDBC, JPA, Git, Blade

Operating Systems: Windows, Linux

Experience

Web Development Intern | Zerovaega Technologies Pvt Ltd. | Aug 2024 – Jun 2025

Engineered responsive web applications using modern frameworks, ensuring alignment with industry best practices. Streamlined project lifecycles from planning to delivery, consistently meeting quality standards and timelines. Performed manual testing to identify/resolve bugs and verified system functionality before deployment. Facilitated client requirement sessions and provided regular technical updates to stakeholders.

Projects

Ashray – Property Rental & Sales Management System | Java, Spring Boot

A zero-commission web platform for landlords and renters to list and discover properties (flats, rooms, bungalows).

The Sherlock – AI Chatbot for Developer Evaluation | Laravel, JavaScript, HTML, CSS

Developed an intelligent chatbot to evaluate user eligibility for specific software projects based on domain and experience.

Implemented logic to dynamically generate assessments and estimate project development timelines based on user performance.

Freelancing Portal for B2B | Laravel, JavaScript, Blade Templates

Built a B2B portal connecting clients with vendors, featuring job posting, proposal submission, and resource allocation.

Integrated features to monitor vendor bench time, improving resource utilization across the platform.
